

Safety Data Sheet

Homecare Moss and Mould Kill

TECHNICAL DATA

1.0 DESCRIPTION

This product is a highly concentrated water-based formula for widespread and long-term control of moss and mould and associated areas. When mixed at a ratio of 80-100 to 1 it gives a proven solution for the treatment of tile roofs (concrete and decramastic), concrete and masonry surfaces.

The aqueous solution is highly surface active and will rapidly wet surfaces thus giving rapid penetration of the active material. It is also suitable for the meat, food and dairy industry as an effective cleaner and sanitizing agent. It has strong residual properties therefore inhibiting any regrowth over varying time spans, depending on conditions.

2.0 OUTSTANDING FEATURES

- Safety and ease of application
- Freedom from strong or unpleasant odors
- Lasting effect on the surface treated
- Economical
- Environmentally Safe
- Can be used at recommended concentrations without the need for a water wash down

3.0 APPLICATION

- 1.0 Mix concentrate at 80-100 to 1 with water and apply liberally to the surface being treated.
- 2.0 Allow HOMECARE MOULD & MOSS KILL to saturate the surface. Most effective control is gained when the surface is dry.
- 3.0 Apply with a rose head type wand or similar low pressure system at the rate of approx. 1 litre to the sq metre or until the surface is saturated.
- 4.0 Remove dead moss and grime after application or leave to the natural washing action of the weather for 9 to 12 months.
- 5.0 A repeat application once surface is clean will inhibit regrowth for an extended period of time. (Approx. 3-5 years depending on local conditions and specific areas.

4.0 MATERIAL SAFETY SHEET

1. Product Name: Homecare Mould & Moss Kill
(Blended Benzalkonium chloride solution)
2. UN Number: 1760
3. Dangerous Goods Class 8
4. Hazchem Code: 2x
5. Subrisk: -
6. Packaging Group: 111
7. Appearance: Clear colourless to pale yellow liquid
8. Specific Gravity: .978 @ 20°C
9. Flashpoint: Does not burn
10. Completely soluble and non-corrosive

5.0 HEALTH EFFECTS

- Swallowed: Moderately toxic by ingestion. If swallowed do NOT induce vomiting. Rinse mouth with water. Give water or milk then raw egg. Contact a doctor.
- Eyes: Moderate eye irritant. If contact occurs, hold eye/s open and wash continuously for 15 minutes with running water, including under eye-lids. Contact a doctor.
- Skin: Medium hazard via skin contact. If contact occurs wash skin with soap and water for 15 minutes. Contact a doctor.
- Inhalation: May cause irritation of the nose and throat, cause coughing and chest discomfort. If it occurs, remove to fresh air, ensure clear airway and breathing regular. Contact a doctor.

Protective gloves, eye protection and overalls are advisory, always wash hands after use, wash contaminated clothing and other protective clothing before storing or re-using.

MANUFACTURERS/SUPPLIERS NOTE:

This does not in any way excuse the user from knowing and applying all the regulations governing this activity. It is the responsibility of the user to take all precautions when handling the product. Common sense and care is needed.
